Safety Precautions

To avoid the risk of damage to the unit do not expose it to rain or any type of moisture. There is no user serviceable parts inside the unit. Opening the unit up will void the warranty.

Disk Laser: This unit uses a Class 1 laser to read the information on the CD or DVD's. Service should only be performed by qualified personnel.

This unit has a normal operating temperature between -15°F (-26°C) and +140°F (60°C). Exposing the unit to temperatures outside of this range could damage the screen or the internal components.

Special care must be taken when mounting the unit as this will affect the performance of the disk mechanism. Failure to do so will result in poor performance.

For best performance, please keep the unit free of moisture or any dusty conditions. In the event that you may have exposed the unit to any of these conditions, it is best to power off the unit to avoid any internal damage.

Warning: It is both illegal and dangerous to watch videos from the front seat by the driver while the vehicle is in motion. The video function is for off-road, show car or passenger use only and is not intended to be used otherwise.

Congratulations on your purchase of this Quantum Audio head unit. Your Selection of a Quantum Audio product indicates a true appreciation of fine musical reproduction.

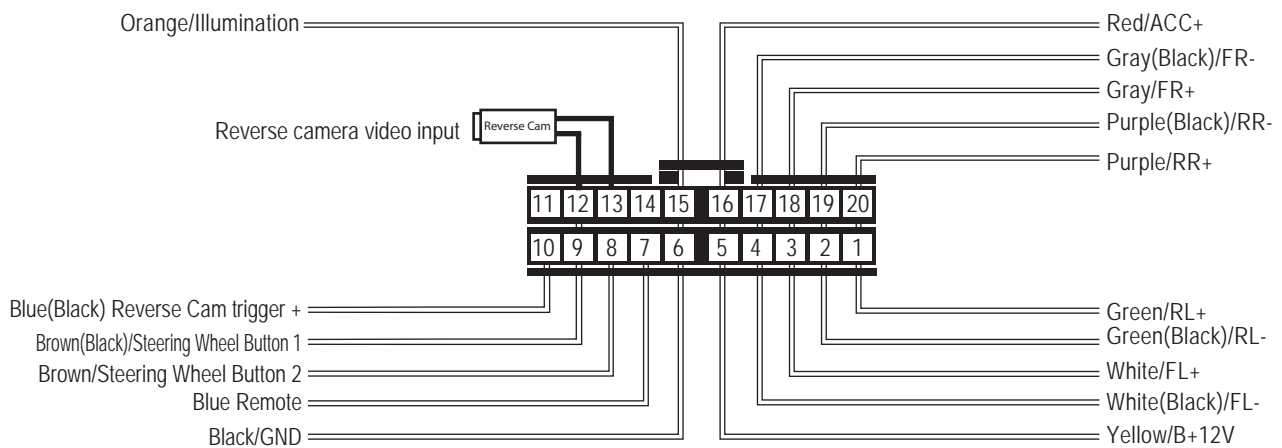

To ensure proper use of this unit, please make sure to read the owner's manual carefully before operating and keep it for future reference.

Main Features

1. 6.1" Wide screen TFT LCD high-definition media player.
2. Touch screen interface.
3. DVD/ Storage Device / Memory Card / FM - AM Radio receiver/ BT Technology for wireless communication with phones and devices
4. DVD/VCD/MP3/CD/MPEG compatible.
5. FM/AM digital tuner with 30 memory presets.
6. Wireless receiver, hands-free calling.
7. Built-in 4 X 60W power amplifier.
8. Signal: 2 video output, 1 video input.
9. Auto-car reverse video mode: camera automatically comes on when car is shifted into reverse.
10. Menu function: all function are operated by OSD menu.
11. Display system: AUTO/PAL/NTSC.
12. Steering wheel control with optional module sold separately.
13. Auto memory savings of strongest radio stations.
14. Supports Memory Card/Storage Device cards to play MP3/MP4/WMA/AVI/JPEG media formats.
15. Picture pixel: 800*3 (RGB)*480.
16. Power: DC 12V.
17. Working Temp: 15°F ~ 140°F.
18. Max Current: 10A
19. Anti-shock function for CD/DVD

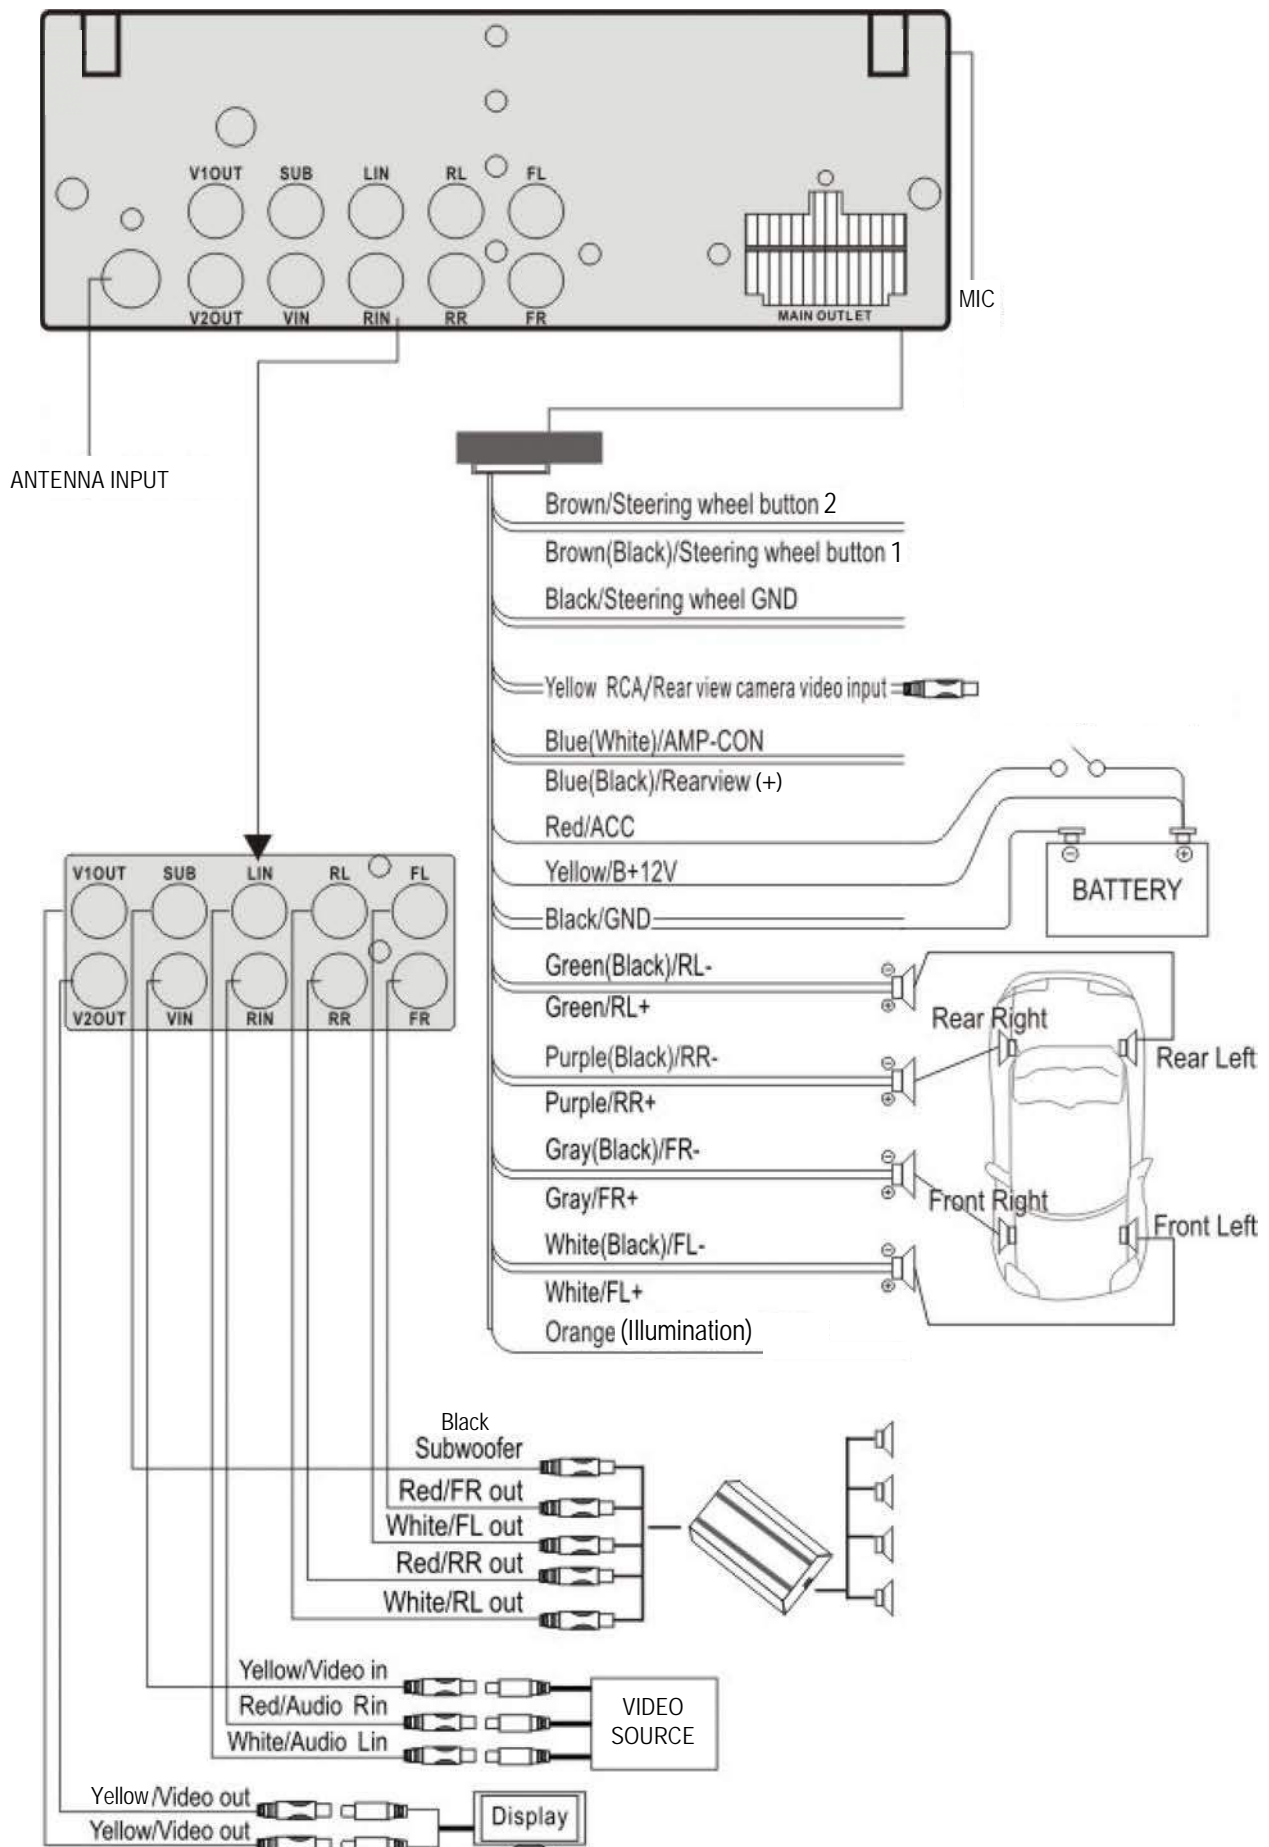

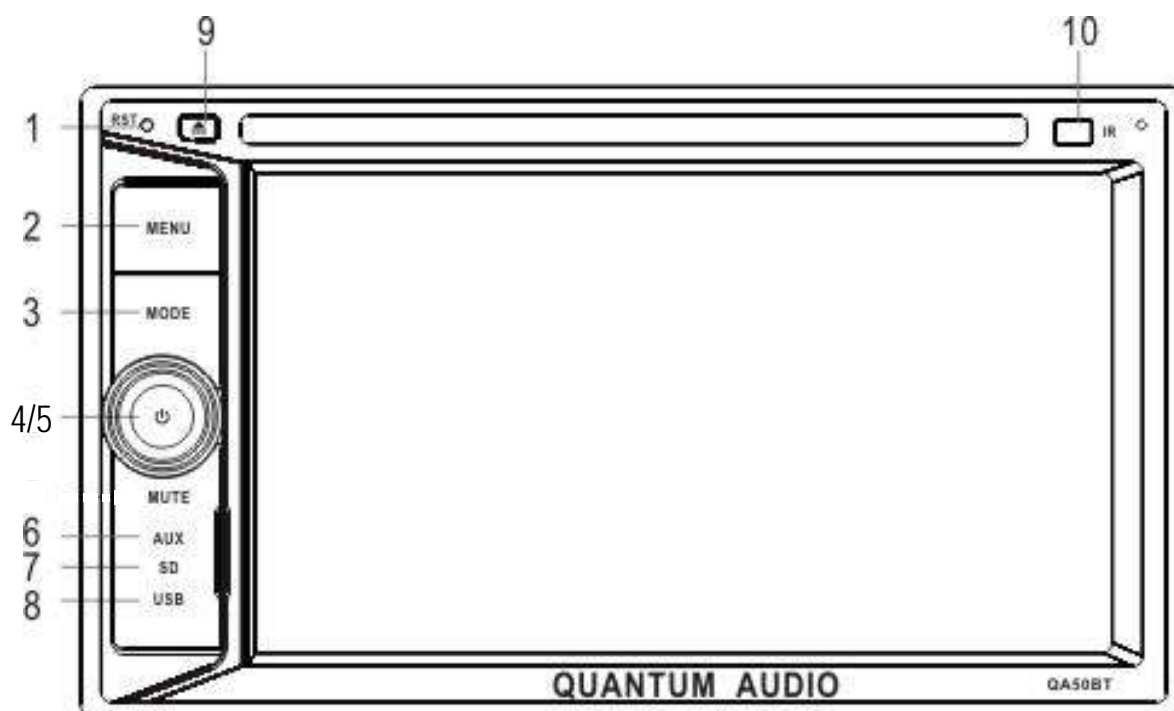

Wiring Diagram

1. Green/RL+: Rear left audio output (positive).
2. Green(Black)/RL-: Rear left audio output (negative).
3. White/FL+: front left audio output (positive).
4. White(Black)/FL-: front left audio output (negative).
5. Yellow/B+12V: +12V battery.
6. Black/GND: Ground.
7. Amplifier remote turn on.
- 8/9. Brown/Steering wheel button 2, Brown(Black)/Steering wheel button 1: Connected to the steering wheel button.
10. Blue(Black) Reverse camera positive (+) trigger.
- 12/13. Rear view camera video input. Rear view camera Black/Steering Wheel GND.
15. Orange/Illumination: Headlight control
16. Red ACC (+)
17. Gray(Black)/FR-: Front right audio output (negative).
18. Gray/FR+: Front right audio output (positive).
19. Purple(Black)/RR-: Rear right audio output (negative).
20. Purple/RR+: Rear right audio output (positive).

Unit Rear Side Connection

1. Reset button.
2. MENU button: The menu switching.
3. MODE button: The mode switching.
- 4/5. PWR/MUTE dial button: Short press to turn on, when the radio is powered on. Long press to turn off; while radio on, short press is mute. Rotate the button left and right to adjust the volume.
6. AUX: Audio auxiliary input jack under cover.
7. Memory Card slot under cover.
8. Storage Device card slot under cover.
9. Eject/Enter the disc.
10. Remote control window.

Connect To Storage Accessories

Connecting With Storage Device

1. Under power on mode, click the Storage Device icon in the main interface. It will play the Storage Device files.
 2. It will display "Storage Device READ ", then play the file.

	Antenna resistance	75Ω
AM	AM Frequency range	530~1710KHZ
	S/N 30db	35dBu
	S/N Ratio	40dBu
	Antenna resistance	75Ω
AUDIO	S/N Ratio	80dBu
	Max output power	60W*4CH
VIDEO	Video output scope	1+/-0.2V
	Video Horizontal Resolution	≥600

Warning

1. To ensure the accurate of touch function, please touch the center point of relative function.
2. To guarantee accuracy of touch screen, we recommend only using your fingers. Oversized objects will reduce accuracy.
3. To ensure the safety of our panel, please do not press or use a sharp object to control the panel.
4. Playing defective disks, may damage the capability of the DVD playback.
5. Be sure to distinguish red 12V positive (+) and black negative (-) when connecting the power. If connected wrong, the fuse will fail. Please take note to replace the failed fuse with a fuse of equal value.
6. Yellow battery 12V (+) is best to connect to a fused 12V (+) to prevent from the under-voltage drop the may influence the normal performance of the monitor.
7. Do not expose the unit to moisture, extreme heat, dust, smoke or sharp objects.

Trouble Shooting

PROBLEM	CAUSE	SOLUTION
Does not power on	Check whether power fuse is open	Replace fuse with same value.
	Some factor caused MCU error in operation	Press RESET button on front panel
Radio station preset memory loss	Wrong connection between ignition line ACC and 12V	Reconnect line
Remote control does not respond	Remote battery low on power	Replace battery on remote control
Poor reception of radio station	Loose antenna connection or poor grounding of antenna	Check whether antenna is connected or not.
Cannot play disk	Disk is scratched.	Try new disk
	Disk may be inserted backwards	Insert the disk with label side up
	Disk is dirty.	Clean disk
Cannot switch language/subtitle	There is only one language/subtitle in dish	If disk is not with multi-language/subtitle, it cannot switch language/subtitle
No video image	Video signal may be disconnected	Check all video cables
