

QDJ12WP

12" PORTABLE SPEAKER SYSTEM : 3000 WATTS

WP Connection

1 Push the "MODE" button on both speakers until speakers are in Bluetooth mode. Screen will display the word "BLUE"

2 When both speakers are in Bluetooth mode, push and hold the "WP" button (Scan / Play / Pause button on control panel) for 3 seconds. You will hear a beep & screen will display "BT / BTST". Next time you put both speakers in Bluetooth mode at the same time the speakers will connect automatically.

3 On your device turn your Bluetooth setting to "ON", you will then select one of the units and pair. Sound will now play through both units wirelessly.
